To: Charles & Vincent,

With 4D SuperEase Professional software, striking 1st Prize is so easy when you know how! I am so proud to tell you that I won a total of \$15,830 on 13 Jan 08 by using your software. I would like to take this opportunity to share with readers how I derived this 1st prize number, 7123.

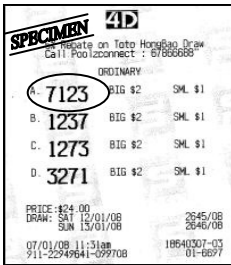

Firstly, I went to 4D Seasonal Analysis. I clicked January, All Prize system 1237 has a total of 17 hits from 1994 to 2007. Next I clicked January again, this time I used Top Prize only. To my surprise, I saw system 1237 hit top prize 7 times in Jan from 1994 to 2007. It is rather obvious that this number will very likely to come in January. So I faithfully followed this number without fail.

Next, I use *System Pick* to identify the best direct numbers for system 1237. 7123 has the most number of Top Prize hits. Knowing this number is always sold out, I started off by buying \$2 big & \$1 small on 7 Jan 08 at 11.30 am. Two hours later, I felt I bought too little and bought another \$2. I just felt very good after I bought the numbers. Two days later on the 9 Jan 08, I felt like increasing my bet again. I bought another \$2 plus \$10 ibet.

That night when the 4D results were released, I was stunned to see 7123 won first prize. Wow, I won a cool \$15,830.00! How I wished I had bought 50 Big 50 Small. I am so glad I invested in the 4D SuperEase Professional 2007. Thank you Master & Vincent for developing this software. Without it, I wouldn't have strike the first prize on 7123. – Gold Seeker (Bendemeer)

Another 4D SuperEase user, *4D Lover*, also strike 1st Prize on 7123. He picked system 1237 because it is a Top Jan seasonal number and selected 7123 direct because it has the highest Top 3 frequency. He bought \$3 big \$3 small and hit direct on 7123 and won \$15,000.00! - 4D Lover (Pasir Ris)

Editor's Note. We received calls from many 4D SuperEase Users who informed us that they hit the number using Seasonal Numbers analysis.. We congratulate all other 4D SuperEase users who won the 1st prize on this number, 7123.
